

TAXED TO THE MAX (Kupka/Lorber/Pescetto)

Politicians promise all they can

to get elected to make a better land

In a smoke filled room, they're makin' all their plans

But when the smoke gets clear, you know it's all a scam

I'm just an average ordinary kind of guy

Punchin' in at 9:00, punchin' out at 5:00

Doin' all I can to pay the bills on time

No matter how hard I try, I just can't get by

Taxed to the max, but we can't get the facts

They just tell us what they think we oughtta know

We get taxed to the max, and we don't get it back

Someone tell me where the money really goes

Weapon systems, national defense

Vested interests, doesn't make no sense

What we think we get ain't always what we get

They keep raising all of our taxes but we get deeper, deeper in debt

I'm just an average, ordinary kind of man

Slightly underpaid, tryin' to understand

No matter what I make, it's never quite enough

Wanna do my share, but it's just ain't fair

Taxed to the max, but we can't get the facts

They just tell us what they think we oughtta know

We get taxed to the max, and we don't get it back

Someone tell me where the money really goes
