# DOUBLE TROUBLE

**INTRO**

**VERSE 1** Walkin' down a lonely street
Mind my business, keep it discrete
In the darkness heard a scream
As I listened, what could it be?
A bullet flashing by
Saw the hit right before my eyes
The gangster and the crime
The right place but at the wrong time

**BRIDGE** Suddenly I was spotted
There was no place to hide
Scared I turned and I ran into the night, oh

**CHORUS** I'm in big, big trouble
Double trouble
I saw things that I shouldn't see
Big big, double trouble
Now they're coming for me
I'm in big, big trouble
Double trouble
Being somewhere I shouldn't be
Big big, double trouble
Now they're coming for me

**INTRO**

**VERSE 2** Ain't no coppers on the beat
In the summer talkin' is cheap
Keep my cover a mystique
Calm and cool, but feelin' the heat

**BRIDGE** Everyone has a secret
That he wants to confide
Trouble is that I keep mine locked inside, oh

**CHORUS**

**BRIDGE** Won't somebody help
Won't somebody tell me
How to set this trouble free?

**INTRO** It's not my fault

**CHORUS**

**CHORUS** (HALF)

**END ON** COMING FOR ME !!
