

# I Can't Wait To Meetchu

INTRO 8 Bars

VERSE 1 I tried to live without ya  
What a misery it turned out to be  
Sorry for the times I doubted ya  
Can't seem to get nowhere 'less you're next to me, Hey hey

PRE And everyday I wonder what it would be like  
Just to see the one who's always by my side  
Lookin' out for you and I

CHORUS I do my best to do right  
Got to get to the way up high (Oh My Lord)  
I can't wait to meetchu  
Love the life you've given  
But I'm not looking forward to the day I die (Oh My Lord)  
I can't wait to meetchu

VERSE 2 So glad to have a love that's true  
And I wanna thank you now for seeing me through  
I'll never be the fool to go astray  
Wanna stick with you always, always

PRE And everyday...

CHORUS I do my best... X2

BRIDGE I'll never be enough to give what you give me  
But I could sing my heart out for you and tell everybody  
All that she asks of us is only to believe  
Disappear your low, low, lows and your woe, woe, woes  
Just like that, it's a natural fact I can't wait till she gets back

CHORUS I do my best... X2
