

## The Power of Love

**Verse 1**        The power of love is a curious thing  
                    make a one man weep, make another man sing  
                    Change a hawk to a little white dove  
                    more than a feeling    that's the power of love

**Verse 2**        Tougher than diamonds, bricks like cream  
                    Stronger and harder than a bad girl's dream  
                    make a bad one good make a wrong one right  
                    power of love that keeps you home at night

**Chorus**        You don't need money, don't take fame  
                    Don't need no credit card to ride this train  
                    It's strong and it's sudden and it's cruel sometimes  
                    but it might just save your life  
                    That's the power of love

**Verse 3**        First time you feel it, it might make you sad  
                    Next time you feel it it might make you mad  
                    But you'll be glad baby when you've found  
                    that's the power makes the world go'round

**Bridge**        say that all in love is fair    yeah, but you don't care  
                    But you know what to do    when it gets hold of you  
                    and with a little help from above  
                    you feel the power of love    you feel the power of love  
                    Can you feel it ?    Hmmm

**Chorus 3**     It don't take money and it don't take fame  
                    don't need no credit card to ride this train  
                    Tougher than diamonds and stronger than steel  
                    you won't feel nothin' till you feel  
                    you feel the power, just the power of love  
                    That's the power, that's the power of love  
                    You feel the power of love  
                    you feel the power of love  
                    feel the power of love
