

# ***You Are My Starship***

You are my light, I have to go on  
Have me anyway you want to  
Just take care and love me until my tension's gone

Cause you are my starship  
Come take me up tonight  
And don't be late

Yes, you are my starship  
Come take me up tonight  
And don't be late  
And don't you come too soon

Baby, yeah

Oh, oh, you are my starship  
Come take me up tonight  
And don't be late

Yes, you are my starship  
Come take me up tonight  
And don't be late  
And don't you come too soon

I can't say (I just can't say)  
(I just can't say)  
It's here that you want me  
(I just can't say, I just can't say)

Ooo, baby, I don't want nobody  
Nobody kissing you but me  
(Can't say) oh, baby (I just can't say)

Cause you are my starship  
Come take me up tonight  
And don't be late

Yes, you are my starship  
Come take me up tonight  
And don't be late  
And don't you come too soon

Baby, oh, yeah  
Take me up tonight  
And don't be late

Oh, you are my starship  
Won't you take me tonight  
And don't be late  
And don't you come too soon
